

FOUNDATION FUTURE OF THE CARBON MARKET

CALL FOR PROPOSALS

The Foundation Future of the Carbon Market has concluded the selection process for first support initiatives and is now initiating the application process for the next round of funding.

The Foundation supports market based initiatives which follow a programmatic approach to mitigate greenhouse gas emissions. It has a focus on CDM Programmes of Activities, but similar approaches may also be eligible, provided that they are aligned with the funding criteria of the Foundation.

Initiatives supported by the Foundation, in particular those initiatives which do not fall within the UNFCCC framework, shall meet the following strategic priorities:

- The funded initiative provides valuable inputs for the design of carbon market approaches within the framework of international climate negotiations.
- The funded initiative is strongly integrated into the climate policies of the host country and is either directly supported, or accompanied by climate change related initiatives of the local administrative authorities.

Please note that the Foundation has updated its funding guidelines. The new guidelines, as well as further information on funding and the application process can be found in the Funding section of our web site www.carbonmarket-foundation.org/funding.

Deadline for submission of proposals is 15 April 2014.

If you have already submitted an application, it is not necessary to re-submit, unless specifically requested by the Foundation.

For further guidance, please contact us under info@carbonmarket-foundation.org.

If you want to receive updates and news regarding the Foundation via e-mail, please send an e-mail with the subject "Mailing List" to info@carbonmarket-foundation.org.
